Dear Members of the ZBA,

I know water quality and delivery have been a concern and priority while permitting Farm Rd. Homes.

I strongly suggest that the ZBA and, any other agency that has permitting authority, mandate a public water supply for all developments that come before the Board.

A public water supply is the only way to guarantee that the water is tested on a routine basis. Additionally, it is the fair and equitable way to share the expenses of water distribution.

The hours spent on discussing this topic could be greatly reduced if it became policy to mandate a PWS for multi home developments that come before the Board.

With appreciation for your time,
